I am adding in some extra/optional goats and miles for my Sunday ride this weekend:

Here is the tentative route. Goats, Silver Creek/San Filipe, Aborn, Quimby West, Clayton, Mt. Pleasant, (Optional w/backtracking Metcalf and Quimby East adding 1545 ft or 8759 ft. total). There are lots of short circuits and other options with this route. It loops back on itself one time to get Clayton. This route sheet is from BikeMaster, (with edits). Short option would take a left on Ruby while starting up Aborn and end at Lunardi's. Middle option skips the Clayton loop by taking a right on Mt. Pleasant.

Route Map is attached as a .pdf file.

Patrice;

Here is the route I was thinking about. Goats, Silver Creek/San Filipe, Aborn, Quimby West, Clayton, Mt. Pleasant, (Optional w/backtracking Metcalf and Quimby East adding 1545 ft or 8759 ft. total). There are

lots of short circuits and other options with this route. It loops back on itself one time to get Clayton. This route sheet is from BikeMaster, (with edits). Short option would take a left on Ruby while starting up Aborn and end at Lunardi's. Middle option skips the Clayton loop by taking a right on Mt. Pleasant.

Route Map is attached as a .pdf file.
